# Alpha Beta Pruning Practice
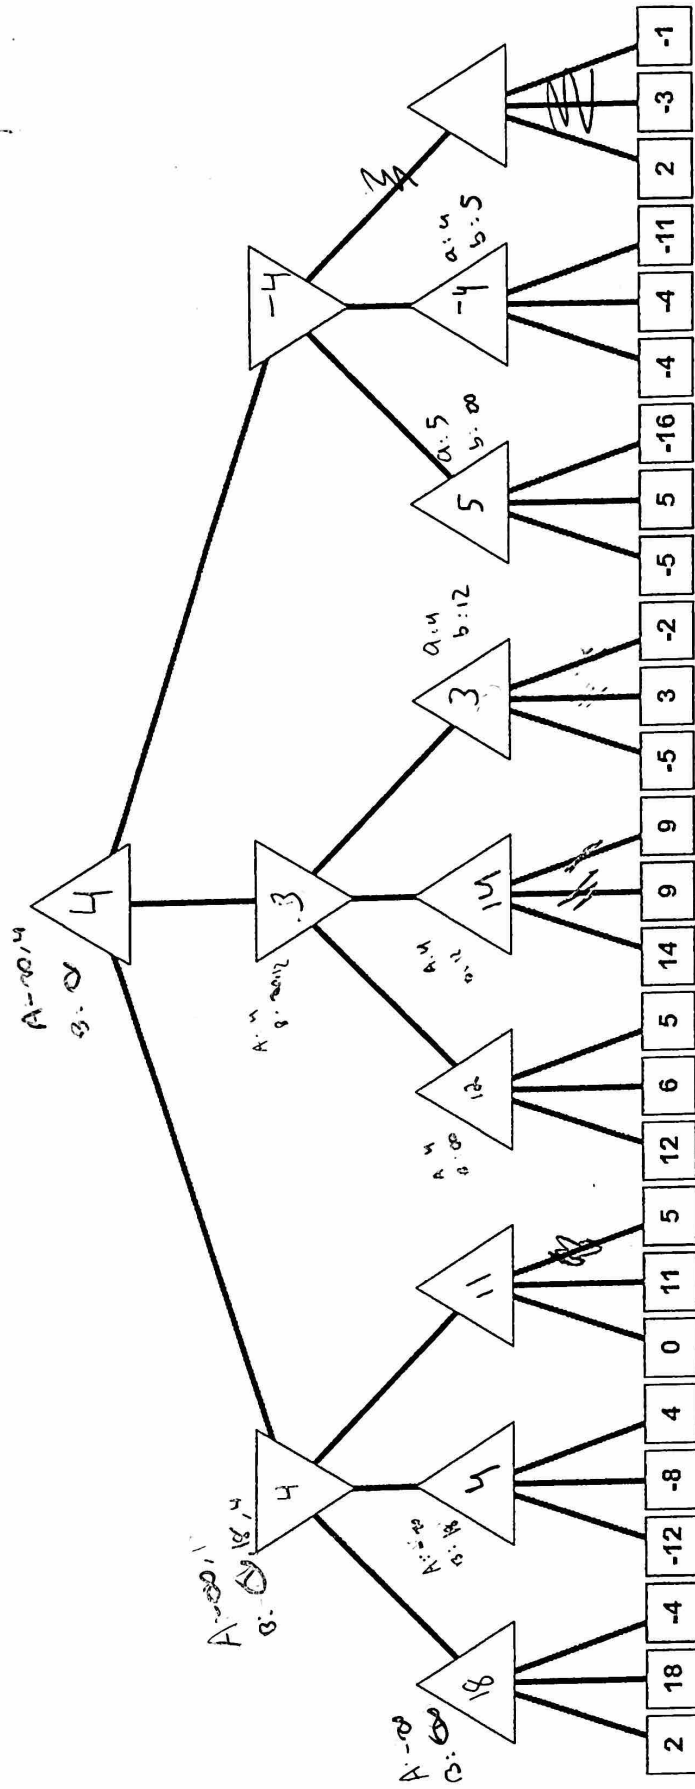

Eckel, TJHSST AI1, Fall 2018

Directions: Keep track of alpha and beta in any way that makes sense to you. You will only be graded on two things:

1) You must correctly identify all subtrees that should be pruned.
2) You must write the correct return value of each node inside the node.

Problem #1:

Problem #2:

(Problems generated at: http://inst.eecs.berkeley.edu/~cs61b/fa14/ta-materials/apps/ab_tree_practice/)
